

GUIDE to MEASURING

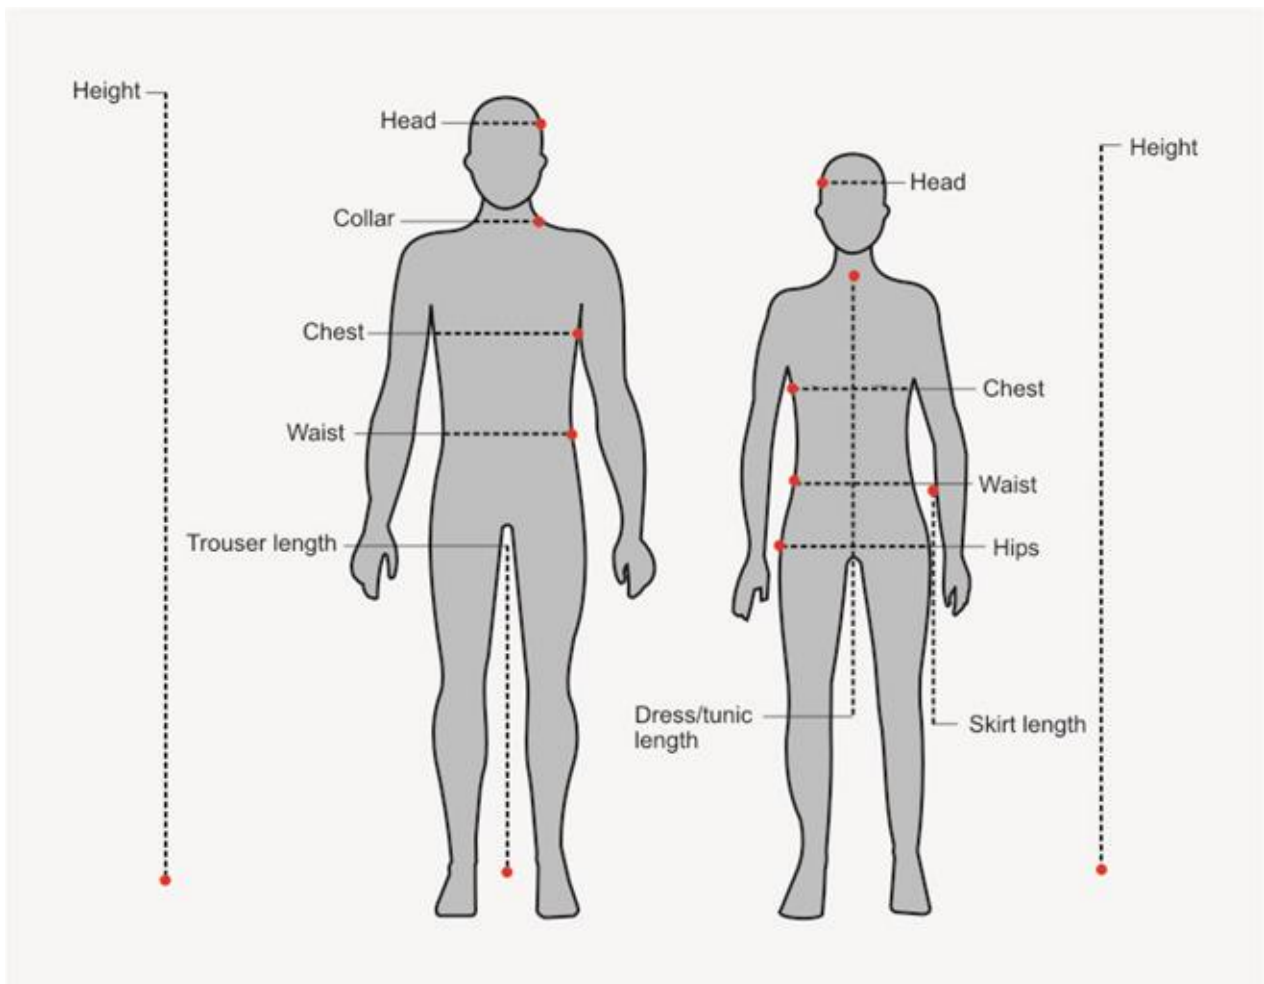

This simple guide has been developed during the coronavirus lockdown to help parents decide what size to order if sizing facilities are suspended.

The correlation chart for your school is shown below.

If the chest measurement is very close to a size and a pullover is to be worn under a blazer you may need to choose the next size up. Many thanks for your patience during the pandemic.

School Colours

STEP 1 – Measure the chest with a tape measure.

STEP 2 – Use the correlation chart below to choose the size needed.

STEP 3 – Only if you want to check the key garment measurements. Please remember our blazers come with a Smartsleeve® that can be adjusted down by 1.5 inches and can be seen on our website <https://www.schoolcolours.co.uk/smartsleeve>. Blazer sleeves can be easily shortened by sewing in a tack on each side after folding up to the right length.

The basic blazer specifications are below; please remember garments need ease in the chest so a size will always measure between 3 and 5 inches more than the wearers chest measurement:

garments are below:
