

English

We will be reading 'Wonder' by R. J. Palacio. Within this unit, we will be applying our grammatical skills when writing a speech and a letter in the character of August. We will be exploring stylistic devices to help enhance our writing and evoke emotion which will support us as we describe characters from different perspectives.

Science

This half term we will be focusing on Animals and Humans.

- Exploring different animals and human lifecycles
- Describe the changes that affect humans from birth to old age.
- Explain what puberty is and how it causes physical changes in boys and girls.

Design and Technology

We will be preparing and cooking pizzas this half term!

We will look at:

- Origin of Food
- Food Preparation
- Cooking and Nutrition

Celebrating culture and seasonality

Maths

Shape

We will be learning to use protractors to measure and draw angles, including acute, obtuse, reflex and right angles. Additionally, we will be recapping our learning on classifying and estimate angles.

Position and Direction

This topic will look in detail at coordinates, including reading and plotting coordinates and reflecting and translating shapes.

Decimals

During decimals, we will be applying our knowledge of decimals to add, subtract, multiply and divide decimals.

Summer 1 Year 5

PE

Yoga

To develop flexibility, control, strength and balance through a variety of yoga flows.

Rounders

We will be developing our bowling, batting, and fielding techniques. We will develop our long and short barriers in fielding and apply the skills to a tournament.

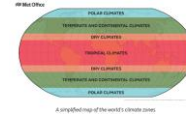

Music- Freedom to improvise

We will continue with our fortnightly Warwickshire music lessons 'upbeat'.

Learn to talk about different styles of singing and improvise with c, d, e flat, e, f and g, with melodic jumps.

Spanish

We will be learning about our world in Spanish, starting with the names for all of the planets!

Geography

Weather and climate

We will be learning to:

- Locate and describe features of climate zones.
- Compare and contrast the climate zones of China.
- Understand how climate change may affect climate zones.
- Understand how extreme weather can affect people.

PSHCE

Relationships

Learning about self-esteem and how this affects our mood and our relationships with others.

RE

This half term we will be focusing on the enquiry question; "Do religions change or stay the same?"

Computing

Vector drawing

We will be learning how to work as a graphic designer by developing our knowledge and understanding of how to draw effectively using a range of tools such as zoom, move, rotate, resize, layer and duplicate.
